

Managing SIM cards in devices can be an administrative nightmare. SIMcontrol is an **easy-peasy management tool** that gives you full control over SIM's in your devices, at a low monthly fee.

It's like nothing you've ever seen.

Features

- * Month-to-month, no-risk contract
- * Full control over your SIM's
- * Custom recharge rules per sim
- * Automated, voucher-less recharges
- * Recharge with data, voice or SMS bundles
- * Activate & deactivate SIM's as needed
- * Online account & management portal
- * Detailed, real-time usage reports

Benefits

- * No 24-month contracts. Yes, no 24-month contracts. That's right
- * Save on airtime and data costs
- * Eliminate risk of SIM theft, abuse, out-of-bundle rates or inactive SIM's
- * Radically reduce admin with one invoice
- * Recharge only when needed
- * SIM warnings and auto keep-alives
- * Flickswitch SimCostBuster® Guarantee

At last, a way to manage SIM cards in devices

This service is perfect for most devices using the GSM network for transmission of data, voice or SMS. These include tracking devices, point-of-sale devices, vending terminals, telemetry devices or any other device using a GSM SIM card.

Monitoring gives you control

We monitor the airtime, data and SMS balances of SIMs daily. Every SIM is linked to any one of your custom monitoring rules. If it reaches the minimum level chosen by you, we automatically recharge it with airtime or data bundles as specified by the SIM's rule. Our online portal gives you full control.

Always know what's going on

We offer a range of custom alert options via e-mail or SMS. We also manage 'keep-alive' recharges in case a live SIM has no activity, and is in risk of being de-activated by the network.

Sweet and SIMple

We manage pre-paid SIM cards on the Vodacom network. Talk to us about your specific requirements. We can also do scheduled or ad-hoc recharges on MTN (SA) and MTC (Namibia). Our built-in Location Service can find the position of your SIM at any time. No more 'lost' devices!

Benefits of managed pre-paid service

Check out www.flickswitch.co.za for a pre-paid vs.contract comparison.

How to get going

Option 1: Pick up the phone and call **+27 (0) 11 507 4755**
Option 2: E-mail us at info@flickswitch.co.za. We'll even call back if you want.
Option 3: Tweet us [@flickswitchSIM](https://twitter.com/flickswitchSIM)

Break free from 24-month contracts

Unlike parenthood, SIMcontrol has no long-term commitment. We operate on a pre-funded purse model.

Top up your purse with credit, and you're ready to go. The service runs on a month-to-month basis. You can add or delete SIM's at any time.

Secure and easy to use

Our software runs in a secure hosted environment. We use 256-bit AES technology to secure the SIMControl monitoring & recharge system. If you're not a geek, that means "don't worry, it's all OK".

Flickswitch who?

We exist to simplify your telecoms experience. We manage thousands of SIMs every day. Visit www.flickswitch.co.za for more on who we are.

Should I be scared of the contract monster?

Yes. You should always be scared of the contract monster.
